

# Notice of Visa Mandate

**Check your POS  
software version!**  
You may need to upgrade

You may be receiving a notice from your Credit & Debit Card Processor about the impending July 1 Visa payment application security mandate:

***By July 1, 2010, all merchants must use PCI PA-DSS or Visa PABP-compliant payment applications.***

As your POS provider, we understand that communication of this sort may generate some concern. We began notifying sites by mail of this Visa July 1, 2010 impending deadline as early as May 2009. We want to continue to be proactive by sending you another reminder, in advance of the deadline.

The POS Manufacturer has made a significant investment to develop PCI PA-DSS or Visa PABP-validated solutions for the protection of your business. As you are probably aware, this is one of several requirements for ongoing compliance with the Payment Card Industry (PCI) Data Security Standards. DCRS Solutions provides comprehensive services to help our merchants comply with all PCI requirements.

**For more information, including a list of Software Applications supported by DCRS with the corresponding PCI Expiration dates, visit [www.DCRS.com](http://www.DCRS.com) or contact DCRS.**

**Please call today to confirm you are using the correct version to meet this Visa mandate. Our team is ready to help. We appreciate your understanding and cooperation, and thank you for your business.**

**Sincerely,  
DCRS Solutions
