

# Remote Eyes

## Video Management System Option to your Micros 9700

*Shrinking Profits?*

Now capture **EVERY LINE** of DATA from your Micros 9700, **BURNED-IN** to a VIDEO IMAGE as evidence of what took place! Then do a **FILTERED SEARCH** from the stored database to retrieve any video clip containing **any transaction...exceptions, "sticky finger transactions", and more!** Why invest in surveillance with no "real time" (by keystroke) display or with poor POS transaction search functions? Choose a **Video Management System** that is **fully integrated** and **does it all**.

**Reduce Shrink & improve your Employee Performance, while also improving your Customer Service, all which adds \$ to your BOTTOM LINE.** Access one or multiple sites using your Video Management System via the Internet. **Can you think of a better investment in today's economy?**

Most see full return in 3-9 months. 8 to 16 Camera **BASE SYSTEMS even include adjustable Varifocal lens** installed by Camera pros. Outdoor & Bullet IR cameras slightly more. If cameras are in place, the **DCRS Video Management System** may be all you need with a free site survey.

**Watch a demonstration at [www.dcrs.com](http://www.dcrs.com)**

12.21.15

**\*\*Install additional for Underground, Concrete, Outdoor, certain Heights; +Freight & Tax.**

See **Notes (1) (2)** on reverse, including added information that may affect your total price.

Notes:

- (1) Micros SIM license is required for Micros 9700 integration from **DCRS Solutions**. **However, this software IS ALREADY IN PLACE at your 9700 site, but will need our setup to interface.**
- (2) Base Camera listed has 1/3" Sony Super HAD Color Sensor. IR Dome, Outdoor, or Bullet IR-type cameras, or special mounting requirements, can be determined at your Site Survey. Camera, Cabling & Installation provided by **our Partner, Will Electronics**, working together to provide you with the **ONLY COMPLETELY INTEGRATED SOLUTION** to your Micros 9700.

**Sample images & types (actual camera image may vary)**

			
Camera Type	Color Dome (Day/Night)	IR Dome	Armor Dome (Day/Night)
Light Level	Full/low	Full/zero	Full/low
